Informazioni tecniche

Attrezzi: frattazzo in plastica
o acciaio inox
Strati: 1-2
Diluizione: pronto all'uso
Resa indicativa: 1,5-2 kg/m²

Technical informations

Tools: plastic or stainless steel trowel
Coats: 1-2
Dilution: ready to use
Indicative yield: 1,5-2 kg/sqm

Informations techniques

Outils: truelle en plastique
ou en acier inoxydable
Couches: 1-2
Dilution: prêt à l'emploi
Rendement indicatif: 1,5-2 kg/m²

Informații tehnice

Ustensile: gletieră de plastic sau inox
Straturi: 1-2
Dilution: Gata de utilizare
Consum indicativ: 1,5-2 kg/sqm
Uscare (la 25°C și 65% U.R.):
Completă de la 1 ora și 30' până la 3h în
funcție de grosimea stratului aplicat

IT Rivestimento decorativo acril-silossanico alleggerito - antimuffa - anti-alga - per effetti materici e testurizzati

Acrisyl Stone riproduce finiture decorative strutturate che evocano la matericità della pietra sulle facciate, offrendo svariate possibilità decorative anche a mano unica: effetti testurizzati a spessore tipo rigati, spatolati e travertino ideali per ogni tipo di architettura sia che si tratti di decorazione e protezione su superfici intonaci tradizionali, che su sistemi di isolamento a cappotto. Grazie alla speciale formulazione microcellulare, Acrisyl Stone crea rivestimenti alleggeriti caratterizzati da un'alta resa al kg, con conseguente riduzione del peso in facciata.

EN Acrylic-siloxane decorative coating for exteriors lightened - anti-mould - anti-algae - special textured effects

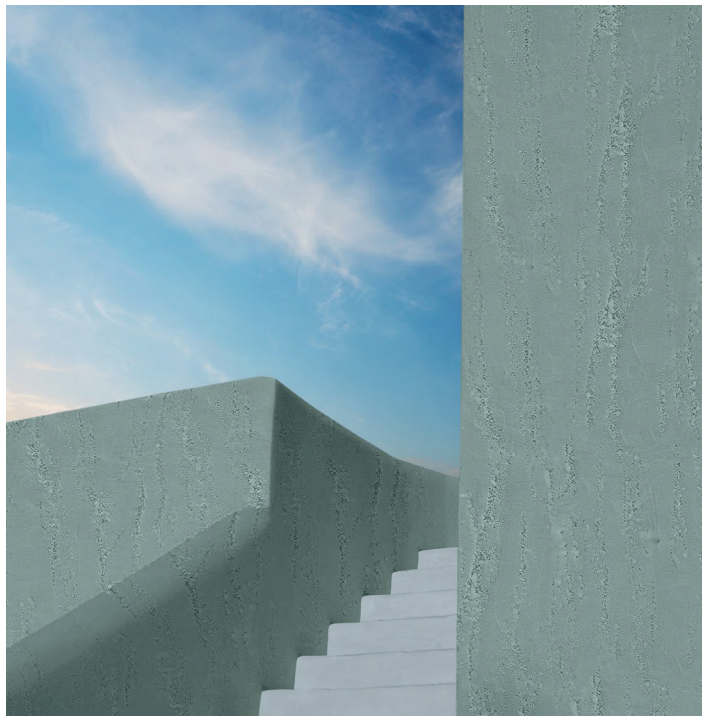

Acrisyl Stone reproduces textured decorative finishes that evoke the materiality of stone on façades, offering a variety of decorative possibilities, even with a single hand: textured effects such as striped, trowel and travertine, ideal for all types of architecture, whether for decoration and protection on traditional plaster surfaces or on external insulation systems. Thanks to its special microcellular formulation, Acrisyl Stone creates lightened coatings characterised by a high yield per kg, resulting in reduced weight on the facade.

FR revêtement décoratif acrylique-siloxane allégé - anti-moisissure - Anti-algues - pour effets texturés et texturés

Acrisyl Stone reproduit des finitions décoratives texturées qui évoquent la matérialité de la pierre sur les façades, en offrant une variété de possibilités décoratives, même avec une seule couche: des effets texturés dans des épaisseurs telles que rayé, taloché et travertin, idéales pour tous les types d'architecture, que ce soit pour la décoration et la protection sur des surfaces en plâtre traditionnelles ou sur des systèmes d'isolation par l'extérieur. Grâce à sa formulation microcellulaire spéciale, Acrisyl Stone permet de réaliser des revêtements allégés caractérisés par un rendement élevé par kg, ce qui se traduit par une réduction du poids de la façade.

RO strat decorativ acrilic-siloxanic ușurat - anti-mucegai - Antialge - pentru efecte texturate și texturate

Acrisyl Stone reproduce finisaje decorative texturate care evocă materialitatea pietrei pe fațade, oferind o varietate de posibilități decorative, chiar și cu un singur strat: efecte texturate în grosimi precum dungi, spatula și travertin, ideale pentru toate tipurile de arhitectură, fie pentru decorarea și protecția suprafețelor tradiționale de tencuială, fie pentru sistemele de izolație exterioară. Datorită formulei sale microcelulare speciale, Acrisyl Stone creează acoperiri ușoare, caracterizate de un randament ridicat pe kg, ceea ce duce la o greutate redusă pe fațadă.

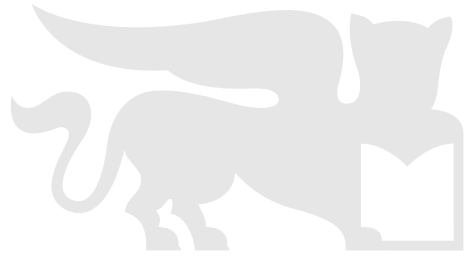

L'ARTE DELLA FINITURA DECORATIVA

La linea Decorativi San Marco esprime la magia di Venezia con una gamma di prodotti che si ispirano alla tradizione artistica della Serenissima. Texture e colori uniscono ricerca innovativa e un gusto per il design contemporaneo: gli spazi si vestono di bellezza da toccare e sensazioni da vivere ogni giorno.

THE ART OF DECORATIVE FINISHING

The San Marco Decorativi line expresses the magic of Venice with a range of products inspired by the artistic tradition of the Serenissima Republic. Textures and colours combine innovative research and a taste for contemporary design. Rooms are enriched with beauty to touch and sensations to feel every day.
